## DPS-1 Display Positioning Stand

---

### OVERVIEW:

The DPS-1 Display Positioning stand provides easy and accurate alignment and z-axis positioning for small to medium size displays. The stand includes a VESA mounting plate with mounting configurations for VESA parts B, C, D, & E. The largest mounting pattern is 200mm x 200mm.

The stand also includes adjustable arms for mounting non-VESA displays.

The stand has knobs to adjust the pitch and yaw angle of the display to better than 0.1° accuracy. It also provides a wheel adjustment for the Z-axis position to accurately set the working distance.

The stand uses that same linear bearing design as our positioners which have proven to be accurate and reliable with no maintenance or lubrication required.

DPS-1 with adjustable arms for non-VESA displays

## SPECIFICATIONS:

- Load Capacity (kg): 25
- Z-Axis Travel (mm): 410
- Pitch & Yaw Angle (°): +/- 5
- Dimensions (mm): 650 x 203 x 770
- Weight (kg): 18.2

*Specifications are subject to change without notice.*
